

### **DAIRY FREE CAKES**

The majority of our menu can be offered in a Dairy Free alternative. Please be aware that all cakes are produced in a kitchen that handles dairy on a daily basis, and therefore we cannot guarantee no traces, although all care and attention will be taken with your order to avoid cross contaminations.

**Please note that many design finishes require a firm setting white chocolate ganache to achieve the desired look, which is not possible in our Dairy Free options. For this reason our Dairy Free menu is limited to Buttercream style cakes and Cupcake orders only.**
